AVIATION CONSULTANCY

Independent, Unbiased Advice

Sentinel Aviation offers bespoke aircraft repossession

In the event a payment, or other default, results in a breach of an existing lease contract or financing agreement, Sentinel Aviation provides an efficient aircraft repossession service.

Sentinel ensures this is done professionally, through its legal, technical, commercial and administrative assistance. It strives to retrieve the aircraft, major components and all relevant historical and maintenance records to minimise any loss in aircraft value during a difficult process.

Recovering an aircraft is an event that requires a considerable degree of pre-planning, co-ordination and post repossession support. It is important, especially in the aftermath, to execute the recovery correctly and in compliance with applicable laws, legal and regulatory requirements. We have the understanding, experience and critical competencies required to plan, coordinate and execute a successful aircraft recovery.

Sentinel can also recommend and implement the most appropriate re-marketing strategy required to place your aircraft as rapidly as possible, again to limit the financial exposure which is normally incurred following a default.

Sentinel coordinates & manages the entire repossession and off-lease period using various specialist providers to supply necessary services including managing all reconfiguration / modification / overhaul services required:

- Flight Deck Crew
- Maintenance
- CAMO
- Insurance
- Technical Audit and Inspection
- Compliance Audits
- Aircraft Storage
- Legal Support
- Aircraft Re-Marketing
- Aircraft Sales

Private Jet, Helicopter & Commercial Aircraft Charter and Management

Sentinel Aviation is owned by Roland Dangerfield, a former British Army Officer (18 Years) turned Commercial Aviation Pilot (12 Years).

He has flown to over 80 countries and some 200 plus destinations carrying Royal Families, Politicians, Diplomats, personalities of the Sports, Film, Television and Music industries and of course, Ultra and High Net Worth Individuals. As a result of this, he has an extensive and in-depth operational knowledge of safe and discreet private aviation charter and management operations.
